WHOLESALE PRICE LIST

FALL 1949 SPRING 1950

KOSTER NURSERY

BRIDGETON

NEW JERSEY

PRICE REDUCTIONS

We believe that, in general, Nursery Stock prices have been too high.

We believe that the time is upon us, here and now, when we shall all have to moderate these prices.

We do not intend to hold on for that last penny. We want to be ahead of the market, so that is why, in spite of the general trend towards even higher prices, our prices to you are being lowered.

A tremendous increase in volume of production, together with greatly increased efficiency, enables us to pass on to you substantial savings.

We hope that you in turn will pass on these savings to your customers, for we believe that only thus can we ensure that healthy, vigorous turnover of business which is the very lifeblood of our industry.

D W A R F K U R U M E H Y B R I D S

SOMETHING REALLY OUTSTANDING FOR 1950-51

In these, the most popular type of Japanese Azaleas, we have what we believe will be one of the finest introductions ever brought to this country. It is a true, hardy Kurume of the Hinodegiri type but with flowers of a clear, rich but intense scarlet. Stock of this plant is not yet available but we know that just as soon as you see it in flower you will just have to have it. We hope to offer young stock next season.

AMOENA.

Extremely hardy and one of the earliest to flower. Blooms produced in dense clusters. Color rosy purple.

A deep pink with the petals striped with carmine. A very free bloomer.

Routed cuttings. Small peat ball...	5.00	45.00
Strong Spring liners. Peat ball....	16.00	150.00

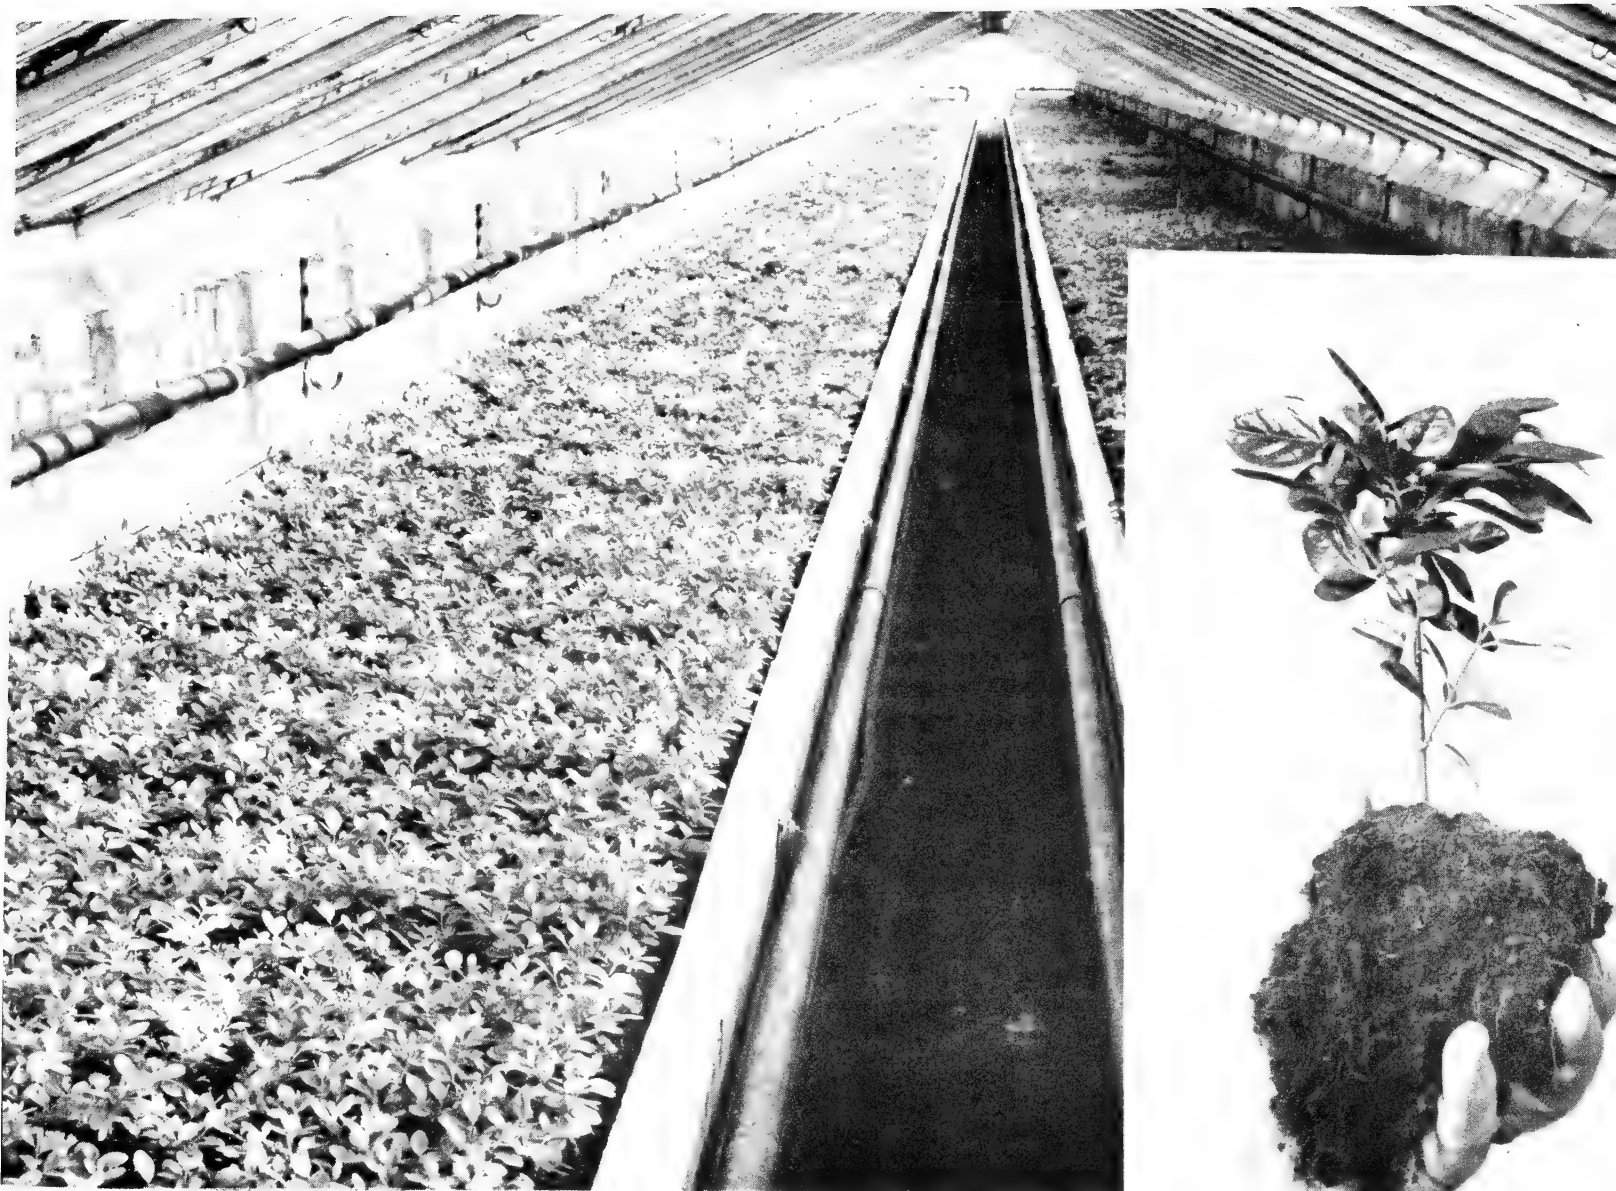

SWEET BRIAR.

A recent introduction to the Pink Kurumes whose main value lies in the masses of flowers which are produced annually. Excellent for border planting.

Rooted cuttings. Small peat ball...	5.00	45.00
Strong Spring liners. Peat ball....	16.00	150.00

SURPRISE. NOVELTY.

One of our recent introductions from Europe. A really fine orange-red and the true dwarf Kurume habit make this an outstanding plant.

A HOUSE AND A FAIR SAMPLE OF OUR SPRING LINERS. VARIETY HINODEGIRI. NOTE THE SOLID BALL OF ROOTS IN THE MICHIGAN PEAT.

G L E N N D A L E H Y B R I D S

For 20 years Dr. Morrison and Dr. Close of the USDA Glenn Dale Plant Introduction Station have experimented with hybridizing Azaleas. Their aim was to produce hardy varieties with flowers equal or superior to the florists' Indica types and the plants now offered are the result of this work. The plants have proved to be entirely hardy in the Washington, D. C. area and we believe that they will be equally hardy over a wide area of the country. One great feature of these Glenn Dale hybrids is that varieties are, or will be available in practically any known shade of color and any desired height and with a continuity of bloom from March until July. It is hardly possible to make a selection from these wonderful hybrids and we are therefore offering the plants this season in collections only so that you also can have the pleasure of trying them on your nursery.

APHRODITE.

Rose-pink. Midseason.

BEACON.

Erect to 5 feet. Leaves narrow, dark green. Almost pure Rose-Doree, in effect nearly pure red. Mid April.

CARMEL.

Early. Tall, single, 2 inch, spinel-red flowers with blotch of Indian-red dots.

CARNIVAL.

Vigorous, upright to spreading bush to 4 feet, with fine evergreen foliage. Salmon color with orange undertone with heavy dull red blotch on uppermost lobe. Mid to late April.

CORALIE.

Erect growth to 5 feet. Fine narrow dark green leaves. Eosin Pink, flushed Rose-Doree, with Tyrian Rose blotch; carries as brilliant, deep salmon pink. Early May.

CORSAIR.

Vigorous upright growth to 5 feet. Brilliant Nopal Red, with large blotch of Tyrian Rose, giving a brownish effect over the Nopal Red. Late April.

COQUETTE.

Leaves fine, pointed, dark green. Salmon pink with small blotch of Tyrian Rose, brilliant red stigma. Early May.

DAYSRING.

Early, erect growth. Flowers like large Kurume's, single, center white shading imperceptibly to clear pale pink.

ENCHANTMENT

Finely pointed dark green leaves. Geranium Pink with heavy blotch of Tyrian Rose on upper 3 lobes. Early May.

FASHION.

Salmon-pink, hose-in-hose.

FESTIVE.

Leaves medium green, somewhat pointed. Pure white flowers freely sanded and occasionally striped with dull rose. Mid-April.

GLACIER.

Vigorous, very handsome lustrous dark green leaves. Flowers shining white with a faint green tone. Late April.

GLAMOUR.

Late. Medium height, rather spreading. Very brilliant rose-red.

ILLUSION.

Dense evergreen bush of compact upright to spreading growth. Leaves dark and shiny green. Flowers deep rose pink with Tyrian Rose blotch. Late April.

MADRIGAL.

Vigorous, spreading bush with slender quite evergreen foliage. Pale rose pink. Mid to late April.

MINUET.

Early. Tall, erect growth. White flowers flaked with magenta.

PRUDENCE.

Dark green leaves, acuminate. Late April, early May.

ROSETTE.

Large double flowers. Violet red, vigorous upright growth. Semi-evergreen.

SOUVENIR.

Hose-in-hose flowers, bright pink with a deep center, which gives a deep salmon pink tone for the flowers. Erect growth, small dark evergreen foliage.

STARDUST.

A late white Kaempferi for all practical purposes. Erect growth. Midseason.

SUWANEE.

Erect habit, leaves dark green, flowers of a very deep pink, with dots of Tyrian rose. Flowers 3" across.

TANAGER.

Late. Large, fushine-pink flowers with darker spots.

TREASURE.

Similar to Rhododendron Mucronatum but with a more spreading habit and heavier leaves. Flowers from 3½ to 4½" across. Pale pink.

OFFERED IN COLLECTIONS ONLY. Five strong spring liners of each of 20 varieties, individually labeled and wrapped. Our selection. Packed for shipment by express.

.... \$50.00 for the complete collection

ARNOLDIANA AZALEAS

This group, raised at the Arnold Arboretum, Boston, contains some of the most hardy and colorful Azaleas grown.

BRIARCLIFF

A deep rich pink. Similar in shade to the well known rose of the same name.

Per 100

\$

Rooted cuttings. Small peat ball.....	7.00
Strong Spring liners. Peat ball.....	17.50

MOSSIEANA.

This Azalea is the true orchid pink of the florists' orchid. In addition, it is one of the most heavily flowering Azaleas we know. A truly fine acquisition for any garden.

Rooted cuttings. Small peat ball.....	7.00
Strong Spring liners. Peat ball.....	17.50

VUYKIANA AZALEAS

These Azaleas are an entirely new race developed in Boskoop, Holland. They are a result of crossing Azalea Malvatica hybrids with Azalea Mollis, and they have many of the finer qualities of both of these types.

MOZART.

Bright silvery pink flowers of a very large size.

PALESTRINA.

Ivory white. We believe that this variety will take the place of the well known Ledifolia Alba.

SCHUBERT.

Light pink. Flowers of unusually firm texture and large size.

JOHANN STRAUSS.

Salmon rose. The brilliance of this color has to be seen to be believed.

OFFERED IN COLLECTIONS of 5 plants of each of the 4 varieties. Individually labeled, wrapped and packed for shipment.

.... \$12.00 for the complete collection

G A B L E ' S H A R D Y A Z A L E A S

The work of Mr. Gable in hybridizing Azaleas to produce an exceptionally hardy race is well known. We offer the following varieties in the certain belief that they will fulfill all the claims made for them.

CLARET.

A claret red, suffused with bronze.

ELIZABETH GABLE.

Late flowering. Rose pink, practically evergreen in habit.

LOUISE GABLE.

Double flowers of salmon pink.

ROSEBUD.

Small tight flowers, pearl pink in color, resembling miniature double roses. A really beautiful Azalea for the rock garden enthusiast.

All of the above Gable hybrids are available as:	<u>Per 100</u>

K O S T E R B L U E S P R U C E

We adopted a new method of propagation for this plant this season, and as a result successfully grafted 75% of the total. It is too soon to say whether our methods were responsible but the fact remains that we have an excellent stock of strong, one year bed grown grafts available at this time. All plants have been carefully trained to form a leader and will line out on your nursery to grow into first-class salable stock.

Individually wrapped in moss and wax paper.

PRICE REDUCTION. XXX

For the past three years we have been both building up stocks and attempting to get into large scale production but as fast as the stock is produced it seems to be sold. However, we believe that all being well we shall produce from between 40 and 50,000 Hybrid Rhododendrons this coming season. Stocks available for this year are strictly limited. Only the following sizes and varieties are available at the time of going to press.

RHODODENDRON ROSEUM ELEGANS. ON OWN ROOTS.

We are now successfully propagating this variety from stem cuttings in quantity, and we are therefore able to offer really first-class plants at considerably lower cost. We have never seen such rapid development on young plants as we obtain from these and we feel so certain that you will be pleased with them if you try some that we are prepared to unconditionally guarantee these plants to succeed under proper cultural conditions.

We have really first-class stocks of Rhododendron Ponticum, grafting size, and can offer these at what we believe to be an economic figure. These plants together with all our Rhododendrons and Azaleas are grown in D.D.T. treated land and can therefore be shipped to any section under the Japanese Beetle Quarantine without further treatment.

HYBRID FRENCH LILACS

PRICE REDUCTION. XXX

One year field grown liners.

Once again we have tried a different method of propagation with great success as the accompanying illustration will show. Mechanical planting on 3' rows under irrigation has greatly reduced our production costs, as well as increasing the vigor and sturdiness of the plants. We are therefore passing on the price reduction to you.
